

# Journey Price List (per person)

Before you start: know that the journey lasts 4 - 6 hours (minimum) and is best done at night. Your dosage will be personalised according to your level of experience, tolerance and desired outcome. I will guide you, facilitate the experience, provide a personalised soundtrack and be there for you until your parachute comes down.

The venue will be your choice but needs to be in a place where you feel safe and free from distractions.  
Before the journey - we will need to establish trust, intentions and expectations.  
On the day of the session, you will need to fast from all food for at least 6 hours.

Each journey price includes 1 x preparation conversation, 1 x integration conversation and the ceremony itself. These conversations can be arranged virtually or in person but will last approximately 1 hour.

**You will need to disclose a list of any medications (including vitamins) before the journey so that I can ensure there are no potential contraindications. You will also be required to sign an indemnity and disclosure before consuming any of the plant medicine.**

*Important to note: the cost is varied because this is not about profit.* When considering the cost, please bare in mind that at least two journeys will be recommended. Payments are a guideline and will by no means affect your journey. The tiered system is used to encourage a transparent, ethical and honouring system of currency exchange. Please pay only what you are comfortable with, noting that these are guidelines only.

Abundance

R3333

This rate is for successful individuals who identify as wealthy. Contributions at this level will do much to assist those who need this work but are unable to access it due to financial constraints. Please consider this tier if you not only have the means, but also see the value in accessibility of this work to a community at large. Funds in this bracket will be used to subsidise those who can not afford the treatment.

These ceremonies are designed for people who genuinely do not have the financial means to explore this option without any form of subsidy. It covers the cost of materials only.
